1every subject does not exist independently

对学好本学科有说明，因为知识在逻辑体系上是互通的，各个学科之间的相互交织。研究经济学的适当学习数学知识有利于对经济学的更深理解，如 philosophy is the foundation of all subject

达芬奇 Da Vinci 即是科学家也是艺术家，他对人体解剖 anatomy 的深入了解，才使得他的油画十分优美，传神。

Since various disciplines

were interrelated, the study of courses outside the students' own field may benefit the study of

their own major.如：力学中的理论可用于美术；如：公共行政学生需要了解心理学、管理学、政治学的发展

2 在全球化进程的今天，只学习某个专业内的知识已经不能满足需要了 In today's technologically advanced society it is impossible for those who focus their attention on the concerning fields to satisfy the needs for the future society.

首先，广泛的学习各种知识能够拓宽视野。(broaden our vision | cultivate full-blown market of ideas | a broad spectrum of opinions | get closer to the truth | come to the best judgment.) True education amounts to far more than gaining the knowledge and ability to excel in one's major course of study and in one's professional career.

其次，可以让学生发现她真正感兴趣的研究方向。By exploring subjects outside their own major, students may find new academic fields where lie their real interest and potential gift.

3过分强调学习其他学科的重要性可能会导致学生忽视主要知识的学习

3、但是，不能放弃对主要科目的深入研究，这也是高校设置 major 的目的所在，浅尝辄止 be satisfied with a smattering of knowledge

对个人和社会都无裨益；

unduly emphasize the importance of studying the course outsider may lead the students neglecting the knowledge of certain fields of study, and thereby have no capability to engage any realm of employment or research work. On the other hand, compel student to place most of the attentions on the professional fields also may falls into another extreme and eventually make the students impossible to catch up with the development of the science and technology

1、肯定伟大国家的第一要素是人民生活好福利好 the overriding imperative of any democratic state is to enhance the general welfare of its citizenry. Great nation 的定义, prosperous in economy, democratic in politics, affluence in cultures. And The peace is still a dream in this country because of divergence between people in religion and nation. India can not be called a great nation.

1、不能盲目的坚持，如果我们坚持的东西是错误的话，否则必将走向失败；如：希特勒
Blind adherence indicates nothing but ignorance and imprecise, which is a sign of foolish stubbornness:

(a) Cause self-complacency which leads to the neglect of one's defects.

(b) If everyone sticks to his or her beliefs, that would cause the conflicts in our daily life.

The most egregious example to illustrate this point involves Hitler, whose belief that the Jews presented potential harm to him and his countrymen was completely ridiculous and fantastic, which ultimately resulted in the tragic mass persecution and even genocide.

2、有时，为了成功我们也需要暂时的妥协；如卧薪尝胆的故事，就是在力量弱的时候妥协争取生存和发展的机会，以期待日后的崛起

Long march of Chinese army

Chinese great leader---Xiaoping Deng are famous for not only great contribution to the founding of People's Republic of china but also his unprecedented stratagem of reform. His theory of reform is based on the objective observation of the developing trend on the whole world and the masses' will of and obvious efficiency upon the situation of china.

3、坚持信念可以走向成功

Only through firm adherence to some of one's beliefs could one make unique accomplishments, especially when you are only one step away from the truth, compromise means total failure. (Martin Luther King, The independence of America, Copernicus)

Mary Curie adhere to her belief; Beethoven; heron Keller Marie Curie's belief-there must be some new matter with the feature of radioactive concealing in the industrial wastes-had enabled her to work arduously and tenaciously, and eventually given birth to the discovery of Radium, which wan Marie Curie the Nobel Prize and meanwhile contributed significantly to the progress of medical science.

3. Blind compromise is also detrimental:

(a) Concerning the decent interests of a country

(b) The loyalty to truth and the respect for individual self as well as the society.

① 通常政治家是 the outstanding individuals in the society.如：Roosevelt 在经济危机时能及时挽救美国

② 不能保证政治家做出的决策总是对的。A 理论上说，他们可能为了自己的私利。B 实际上说，历史上有许多例子，关于政治家作了错误决策的。The cultural revolution

③ 不能忽视普通人群的判断力和决策，尤其在一个民主国家,因为政治家了解到的情况可能不那么真实，而 the public 才是真正的利益相关主体

The political issues are highly professional and requires expertise to tackle, political leaders should rely on their judgment

Political leaders, on general assumption, should be well-trained to handle highly professional issues

General public, on the other hand, can only follow rather than lead

In democratic nation, and to ensure no bias or political discriminations soil the basic interest of the general public, the voice of the people should be taken into consideration

当确定一些领域的优先权时，比如科学、教育等，最需要考虑的问题是：有多少人会从中获益？

1. 能够解决现在最urgent 社会问题理所当然的应该给予优先权。如：通信，经济，商科，法律、医学。A 哪些人会受益。B 实际证明这些学科也是最兴旺发达的。最优秀的学生通常都去了这些地方。。 医学、生物研究，对治病的作用；农学研究对基本生活需要的满足；工程研究对建设的作用

3. 在研究成果没有出来之前，我们很难判断哪些是能给最多人带来利益的。因此，让其平衡发展。按照经济学的观点，那些已经兴旺发达的学科，政府不需给予太多关注，否则几年后供大于求；而那些现在默默无闻的学科今后可能是很有用的学科，需要给予扶持。

一些已经很好的学科或许 不能太过于投入，而一些不是很发达的则需要大力支持。

I agree insofar as areas of research certain to result in immediate and significant benefits for society should continue to be a priority. Yet, strictly followed, the speaker's recommendation would have a harmful chilling effect on research and new knowledge.

1. Admittedly, scientific research whose societal benefits are immediate, predictable, and profound should continue to be a high priority.

2. However, this is not to say that research whose benefits are less immediate or clear should be given lower priority. First of all, if we strictly follow the speaker's suggestion, who would decide which areas of research are more worthwhile than others? Researchers cannot be left to decide.

1 诚然，过去很多的动物都是因为自身不能够适应自然条件或者竞争法则而灭绝的。

The first is essentially the Darwinian argument that extinction results from the inexorable process of so-called “natural selection” in which stronger species survive while weaker ones do not.

然而，professional agency of species protection

公布的数据表明，目前动物因为人类灭绝的数量是自然灭绝的100倍。人类对环境的污染导致很多生物不能够适应剧变的环境而灭亡；人类的大量开发土地和deforest导致生物的生存空间越来越小。人类正在成为leading killer，所以，我们有责任去保护那些濒临灭绝的动物。

——

我们有责任去保护那些因我们而身陷危险的动物和植物，它们也是地球的一员。没有了它们，我们将会变得很孤单。我希望，未来的孩子们问起大熊猫长什么样的时候，我们可以带他们到动物园去看而不是仅仅在电视或书本上。

2 保护那些濒临灭绝的动物对我们的生态系统有好处。

一方面，保护那些濒临灭绝的动物就是保护生态平衡，比如在一个小岛上，如果某种鸟类灭绝了，那么田鼠之类的动物就没有了天敌，他们的过度繁殖会大量破坏植被，造成生态系统紊乱；另一方面，保护濒临灭绝的动物可以保持生态系统多样性，对我们的科研很有帮助，科学家可以采集动物的基因进行研究，从而找出它们进化上的弱点，从而为我们人类和其他动物提供数据。从这个意义上说，我们应该保护那些濒临灭绝的动物。

It is time for human beings to ... now.

如果我们现在去保护那些濒临灭绝的动物，可以积累大量关于治理环境污染和保护动物的经验，从而用来保护那些目前没有濒临灭绝的动物。等到地球上的动物越来越少的时候就来不及了。我们现在帮助大熊猫配种繁殖，产下更多后代，未来就可以防止更多的物种因为生殖问题而灭绝；通过研究亚马逊森林的物种减少问题，我们可以知道酸雨和砍伐造成的，我们就可以采取相应的措施去减少这种损失，以避免更多的生物濒临灭绝。这些经验是宝贵的，他们可以帮助我们避免悲剧发生在其他生物的身上。我们的行动越早，悲剧就越少。

(b) Formal education makes the freedom of mind possible: what has been learned is a circle. Provided the larger the circle is, the more space you would have to imagine and create.

----Disagree

1. Subsidizing cultural traditions is not a proper role of government.

2. Secondly, subsidizing cultural traditions is not a necessary role of government.

Philanthropy is alive and well today, and so government need not intervene to ensure that our cultural traditions are preserved and promoted. Economic, development, improvement of people's life.

3. Finally, and perhaps most importantly, the speaker unfairly suggests that large cities serve as the primary breeding ground and sanctuaries for a nation's cultural traditions. Origin of the folk art 保留了更多传统文化. With the globalization, major cities all over the world have become increasingly similar to each other. 上海和纽约 same skyscraper efficient life style

1. 经过历史上的发展，有文化传统的积累。城市确实更可能成为国家文化交流的中心，比如，北京的京剧，西安。因为主要的大城市往往是经济文化较发达的地区。比如，在纽约几乎每一周里都有各种游行，中国新年的游行，St. Patrick's Day（爱尔兰的节日）游行等等

2.大城市作为经济文化交流的中心，文化间的交流，使得本国的文化与外来的文化互相作用，不利于原汁原味本土文化传统的保留。文化交流必然会趋于同化，相互影响，一个地区的文化传统很难在这样的冲击下独立生存下去。比如我们现在整天大吃 KFC Pizza 看美国大片，听摇滚音乐，冲击了中国传统的地方戏剧和音乐。

3.反观乡村，也孕育和保存着一些已经被历史遗忘的文化传统，如美国乡村音乐，blues and jazz 都起源于南方小城镇，而美国的小说也大多起源于中部平原地区

关于政府的财政支持，政府的确是应该支持大城市的，如果它需要的话，毕竟大城市的发展关系着整个国家的经济发展。然而，我们应该明确的是政府绝不是因为文化的考虑而支持大城市，相反，为了保留文化传统，国家应该加大对小城镇或农村的支持力度。

随着城市化的不断深入，人们开始逐步离开乡村走进城市。因此很多人也相信文化传统是在城市里产生和保存的。但追溯整个人类历史，文化传统的真正根源还是在乡村，只不过是资本主义工厂与商业的喧嚣让人们无法回归文化传统的本源。这也正是在浮躁的城市中，越来越多的人开始追寻曾经乡村生活宁静，慰藉自己孤独的灵魂，重温泥土和田园带来的幸福

With the deepening of urbanization, people gradually leave the countryside and start to dwell in cities, which consequently are believed to be where a nation's cultural traditions are generated and preserved. Yet, tracing the human's civilization, we will find a fact, usually distorted by the factories and chaos of capitalism, that the origin of cultural traditions is deeply rooted in the rural areas. Simply due to the sounds and furies of cities, more and more people are longing for the tranquility of countryside, soothing the lonely souls and reminiscing the pastoral nostalgia.

1、媒体审查破坏英雄形象

出自媒体对利益的追逐 profits-seeking entities; maximize their profits

Consider Nixon's Water Gate Scandal, Bill Clinton's sex scandal, and Kennedy's ex-marital scandal,

each of which become the hottest topic being reported on the media coverage.

If it were not for the mass media scrutiny, we would expect that people still regard them as the

national hero Admittedly, it is human nature to pry into the privacy of public figures, deriving from envy or jealousy.

The media, propelled to gain as much profit as possible, try to cater to the demand of public

2 真正的英雄(Turning back to the real hero), 不管媒体怎样窥视他们私人生活 pry about , 他们还是一样受人们尊重。一方面真正出色的人, 在私人时间, 也是非常常规的生活——看书, 休息, 运动——让媒体没有可乘之机, 做事保持很高的道德水平。另一方面是他们的出色成就让他们的所谓的错误行为那么微不足道, 比如罗斯福, 他也有 EX-marital scandal , 但是这些行为比起他的成就——走出大萧条, 领导二战取得胜利, 他是公认的 20 世纪最伟大的总统, 人们及使知道丑闻, 但是仍然和以前一样尊敬他。所以真正的英雄, 仍然有很高的声誉, 不管媒体怎样报导。

Mother Teresa, winner of the nobel peace prize, dedicated the majority of her life tp helping the poorest of poor in india, thus gaining her the name "saint of the gutters" the devotion towards the poor won her respect throughout the world and the nobel peace prize

3. To err is human, nobody could live flawlessly. And actually, people are increasingly used to feeding from the mainstream media without selection. They have lost the ability of critical examine.

① hero 一般被传媒夸大了。他们的缺点都被视而不见, 已经不是原来的那个真人。如: 毛、斯大林 Stalin。idolatry

② hero 代表的是人们不可能达到的状态。

people regard those heroes and heroines because they can realize people's mutual dreams and goals which seem to be unattainable to people themselves. Saint Joan of

Arc, the heroines who have been eulogized by French people for many generations, bravely organized the French armies to fight against the British invaders. Similarly, Mulan, the Chinese girl who served in the army force instead of her silk father also won respect and admiration from world people.

2. 只能反映社会积极的一面，而不能反映消极的一面 另一方面，不能反映日常生活

3. 有时确实可以反映社会的倾向。

一方面我们可以通过英雄来了解社会普遍的价值。比如美国的三个总统。华盛顿代表了美国社会对个人利益的尊重；林肯代表了美国社会的自由与平等；罗斯福代表了美国社会的正

义感以及工作热情。

such heroes include President Washington, who overcame unprecedented obstacles and hardship to unite the continental army and latter established the United States, and President Lincoln, who freed the American blacks in the south and reunited the nation during the Civil War.

这些正是美国社会的特点。通过不同的时期的英雄，我们可以了解不同时代的社会价值如：甘地 Gandhi nonviolence & noncooperation 对印度统一的热望

Martin Luther King 对取消种族歧视的追求，其实反应了黑人美国社会对种族歧视的反抗。

1、法律在现代社会中起着重要的作用 The legal system is intended to force people to abide by certain social rules and to commit

no crimes, which is the precondition of any stable and orderly society.

2、但是，如果没有道德和价值观念，法律将毫无作用

首先，道德观念是人类文明的结晶， sink its root in all the people's mind. No one can go behind these

stereotypes in their daily lives. 能够真正被人们认识和接受，比法律更容易被接受

3、许多社会问题通过法律和司法系统很难解决，它们通常受多方面的因素影响。比如 automobile 虽然使人们的生活方便了，却对环境造成污染，但不能为了保护环境就禁止 automobile 的使用；大家都知道吸烟不好，对自己和周围的人构成危害，但不能用法律禁止吸烟，因为影响经济，影响依赖烟草公司生活的工人。对于这些，政府只能通过教育的方式来提高人们对这些问题的认识，虽然不能这些道德行为立法，但可以通过道德教育使问题得到改善。

human nature-desires and motives; fears and foibles not to legislate morality; crime and violence Selfishness, conceit, greed and other evil human natures still exist today. In spite of the efforts made by government to eliminate crimes, rampant gangs and addiction of drugs, these social symptoms still remain. Studying the past events can help the legislator understand which policies would possibly take effect to solve these problems, while which measures are futile or even have adverse effects. For example, the failure of 1930 Prohibition teaches us that the effort to regulate ethical problems by law is impractical. The most egregious example to illustrate this point involves Hitler, whose belief that the Jews

long march of Chinese army

Chinese great leader---xiaoping deng are famous for not only great contribution to the founding of people's republic of china but also his unprecedented stratagem of reform. His theory of reform is based on the objective observation of the developing trend on the whole world and the masses' will of and obvious efficiency upon the situation of china.

The political issues are highly professional and requires expertise to tackle, political leaders should rely on their judgment

Political leaders, on general assumption, should be well-trained to handle highly professional issues

General public, on the other hand, can only follow rather than lead

In democratic nation, and to ensure no bias or political discriminations soil the basic interest of the general public, the voice of the people should be taken into consideration

Constitutionally legitimate for people to participate political affairs and defend their own rights

Write a response in which you discuss the extent to which you agree or disagree with the statement and explain your reasoning for the position you take. In developing and supporting your

position, you should consider ways in which the statement might or might not hold true and explain how these considerations shape your position.

(1) Actually, people's attitudes are determined more by internal characteristics rather than their immediate situation or surroundings. (Like one fable, when facing the same half bottle of water, pessimist and optimist would react quite differently, which are people's internal characteristics.) (People's attitude toward failure, critics, other's success)

(2) Some critics might argue that under immediate situation or surroundings, it is these outer factors, rather than the internal characteristics that determine people's attitudes. (People may behavior abnormally)

(3) However, in these cases, it is still people's internal characteristics that they are prone to gain experience from the past and make immediate response, which definitely derives the internal characteristics. (Investigations)

(4) On the other hand, we could not simply ignore the influence of immediate situation and surroundings. It is reasonable that the more urgent the situation is, the more pressure and tension one may receive and thus might make some hasty and inadvisable decisions.

In developing and supporting your position, you should consider ways in which the statement might or might not hold true and explain how these considerations shape your position.

(1) The past achievements are the prerequisite and foundation:

(a) Existing experiences and theories provide the foundation and construction of our knowledge and understanding.

(b) Inspiration: some wrongful ideas to be improved.

(c) Their ideas and opinions could be the fountain (inspiration) of our creativity and thus could we make a significant contribution.

1. standing on Copernicus' shoulder, Galileo, a scientist who inducted experimental method into

scientific researches, invented telescope, which made people learn that the earth is not the center of

universe. After many years, standing on Galileo's shoulder, Newton founded the Law of Gravity, which

explains the regularity of planets' motions.

Newton claimed (and I paraphrase) that: "If I have seen farther than others, that is because I stand

on the shoulders of a giant.” The 'giant' he referred to is the very knowledge in the field of physics

accumulated by prior physicists, which helped him to achieve his systematic laws of physics.

1. 在文学艺术领域，很多小说、诗歌之类是源于生活，很多都是有历史和生活背景的。例如汤姆叔叔的小屋，就是以黑暗的奴隶制度为背景的；而马克·吐温的小说也是来源于现实生活；荷马史诗不是荷马本人所写，而是他整理其他诗人的成果而成；这些都属于创新，但却不是凭空想象。

2. 政治上：民主出现之前，政府统治一切，后来，经过 revolutionary 人们可以自由对政府的政策发表意见 freely state their opinions about all the issues and measures of the government. To some extent, it can found the some stuff from the old regulations while, on the other hand, it also be colored with a fresh perspectives。

(2) Not too rigid, that is, one should keep a creative and reasoning mind so that he could not be strongly influenced and restricted by the past achievements. (Confucius: Learning without thought is labor lost, while thought without learning is perilous.在前人成果基础上用于质疑和创新，才能作出新的贡献，仅仅受到别人的影响是不够的 it is dangerous to get

(1) 艺术作品的价值与大多数人是否理解是没有关系的，一个艺术作品只要是作者的真实情感、感受、想法的表达，

那它就是有价值的。Mona Lisa Beethoven 因为人们的知识有限，也不是每个人都是心理学家，所以不可能完

得到诗中作者的感情和情趣；

According to what Freud has said (and I paraphrased) art, in essence, is a kind of release of individual

lust, converting the human libido into plentiful creativity. It is through the work of art that artists

express their passions, emotions, and desires. From this we can see, art is therefore, first and

foremost, concerning with the inner world rather than with the outside one as a whole.

(2) 艺术作品不一定需要人们的理解。艺术作品正是因为不容易被理解，才有了见仁见智的感受，才给人想象力，

(1) Admittedly, everyone seeking for success is inevitably dazzled by immediate fame and recognition, especially in today's society where newspapers, magazines, televisions and broadcasts are full of stories of successful bold youngsters. Consequently, more and more adolescents desire for immediate fame, which actually often bring about more harm than benefits. (Singers, movie stars, little writers.)眼前的利益给了他们太多的冲击和诱惑

Seeking immediate fame and recognition would turn out to be counterproductive. (畏惧坚持不懈和毅力 persistence)

(2) Actually, while prompt successes are not rare, in most cases in history, success came after a long period of time with careful and cautious plans, which require firm will to attain long-term goals. In developing and supporting your position, you should consider ways in which the statement might or might not hold true and explain how these considerations shape your position.

(1) The increasingly rapid pace of life do help people solve more problems: the higher productivity, higher effectiveness, the more business. (Just like the higher the speed is, the more distance it would cover in a day.

(2) At the same time, though, it does bring about many problems:

2.1 Advancing technology and increasing globalization creates problems in many fields such as politics, military, economics and environment, which are far more complex than in the past.

For example, growing scarcity of the world's natural resources 自然资源严重匮乏, over population 环境污染, over consumption of energy 能源危机, nuclear weapons 核武器问题, the greenhouse effect 温室效应 and other environmental disasters.

2.2 With the increasing rapid pace of life, people have to do much more work in one day, and thus cause the higher health problems.

Due to the higher pressure deriving from the rapid pace, more and more people are suffering from psychological problems. an even worse situation is that the rapid pace has exerted high psychological stress and anxiety high expectation

The idea to outdo others would cause conflicts, misunderstanding and envy among people.

Lack of communication of people. → 人与人亲情友情逐渐冷淡

(3) The rapid pace of life is inevitable

Actually, the real problem is that people fail to treat the increasingly rapid pace of life. They should use the leisure time to enjoy the reunion from family, the get-together of friends, and the beauty of nature.

It is meaningless to determine whether this change has caused more problems or has solved more problems, since they simply could not be compared. Write a response in which you discuss the extent to which you agree or disagree with the statement and explain your reasoning for the position you take. In developing and supporting your position, you should consider ways in which the statement might or might not hold true and explain how these considerations shape your position.

1、外部需要使人成为 leader

As philosophy tells us, the emergence of anything is inevitably accompanied with certain cause, direct or indirect, explicit or implicit, leaders unexceptional.

The demands that are placed upon them are the just causes leading to the emergence of leaders. (Thomas Jefferson said in the Declaration of Independence: "That all men are created equal, that they are endowed by their Creators with certain unalienable rights, and among them are life, liberty and the pursuit of happiness—That to secure these rights, governments are instituted among men, deriving their just powers from the consent of the governed.")

外部需要激发人的动力与能力成为 leader

Nelson Mandela, the South African black political leader and former president, who contributed

lifelong dedication to the fight against racial oppression in South Africa, said in his autobiography: '

—

The chains on any one of my people were the chains on all of them, the chains on all of my people were the chains on me.' With such a compelling and inspiring political responsibility, Mandela placed the liberation of both the oppressed and the oppressor as the first and greatest mission since the release in 1990 from more than a quarter —century imprisonment. And the intensive sense of responsibility guided him to become a vital force in the fight for human rights and racial equality

The era they exist provide them a stage to 展示才能, 发挥作用, 并取得了巨大的成功。
例: Bill Gates 创立微软, 带领人们进入 PC 时代; Chair Mao 领导人民获得解放; 邓小平 改革开放, 中国经济巨大发展; 美国 Roosevelt 的 New Deal, recovery from the Economy Depression and World War II; 彼得大帝 (Czar Peter), 被认为是俄国最杰出 (preeminent) 的沙皇 (czar)。当时俄国十分落后: 农奴 (serf) 增加, 合法权利减少; 俄国错过文艺复兴 (Renaissance) 和宗教改革 (Reformation) 的最好时期; 科学停滞不前。而西欧一片繁荣。于是进行了西方化改革: 发展科学, 改革社会风俗, 使得俄国成为列强之一

demands 成就了 leaders, but not create leader

2, Besides opportunities, one must possess certain qualities to be a leader. Individual characteristics, such as wisdom, decision and diligence, are also indispensable for a young aspirant to finally become a leader. 如上面所提到的人, 没有一个不是具有非凡的智慧、坚强的性格和过人的胆识, 而且经过了不断的努力才成为了有成就的领导者

Generally speaking, a successful leader is a combination of internal qualities and external conditions. 没有个人能力, 无论在怎样的时代和条件下都不会成为一个好的领导者, 否则, 怎么不是其他人在那个时代站了出来; 反之, 一个人在领导再有能力, 但没有发挥的机会和舞台, 人们不需要他, 也不会成为好的领导者。

Knowledge is the primary pave stone of the way to a leader. G. Washington, by his outstanding

military aptitude, won his people the independence of America. It is not denied that the special

historical situation did him a favor to achieve success; nonetheless, it is his knowledge and wise

military strategies that play the vital role.

Lincoln, as one of the greatest president in the American history, without his preeminent glamour,

could not be so respectful and famous. In his inaugural speech, he launched his elegant words (they

got him close to the electoral people and expressed his amicable characteristic) that what he can

depend on are only his citizens. It is true that the demands placed upon him play a catalytic role in his

being a leader. However, without his stunning characteristic, he cannot realize the success in the

political career.

Write a response in which you discuss your views on the policy and explain your reasoning for the position you take. In developing and supporting your position, you should consider the possible consequences of implementing the policy and explain how these consequences shape your position.

1 政府应该对科学研究进行合理的限制, 这样才可以保证社会上大部分人的利益, 比如科学家对核能 (nuclear

energy) 的研究一方面铸就了核电站 (nuclear power station), 使得发电的成本大大降低; 另一方面,

却研究出来了核武器 (nuclear weapons) 杀伤力很强 (max destruction), 远远超过常规武器 (far

excellent than conventional weapons)。核武器有潜在的危险, 如果战争一旦爆发, 使用核武器将

会给人们带来巨大的灾难。比如对农药的研究, 现在的科学家可以研究出更有效的农药 (pesticide) 来杀

死害虫(pests),而且农药的毒性越来越强,但是如果政府不加管制,那么这些毒素(poison)会进入

人的身体,危害人们的健康。

2 政府应该对某些研究加以支持,否则就会使研究失去平衡。有些科学研究是可以给某些团体带来直接的利

润的,比如对软件工程(software engineering)的研究,编写出新的软件,可以得到直接的利润;而有

些是没有直接的利润的,比如天文学 astronomy,生物学 biology,这些都没有直接的经济效益,如果政

府不限制,那么将来会有很少的人从事这方面的研究,则整个研究失去平衡。

3 科学研究有时候是超前的,创新的。政府不太可能正确的判断是否正确,如果政府对科学研究做过多的限

4. Scandals are useful because they focus our attention on problems in ways that no speaker or reformer ever could. 丑闻是有裨益的，因为它们让人们注意到一些问题，任何演说家和改革家都无法做到的。

Write a response in which you discuss the extent to which you agree or disagree with the claim. In developing and supporting your position, be sure to address the most **compelling reasons** and/or **examples** that could be used to challenge your position.

1 Scandals, whether in politics, academia, or other areas, can be useful in that they focus our attention on problems in ways that no speaker or reformer ever could:

(a) Politics: convince people of the dishonest of some officials (Watergate Scandal, the abuse of power by public officers, violation of the public trust, contempt of Congress, and the attempted construction of justice)

(b) Academia: Mendel's dishonesty in creating or falsifying the data.

Luk Van Parijs, a former associate professor of biology at MIT, once was considered as a rising star in the fields of immunology and RNA interference. However, this high-flying researcher has been fired from MIT for fabricating data in a published scientific

paper, in unpublished manuscripts, and in grant applications, which was discovered by the media,

(c) Business: bribery and cheating

2scandals 很容易误导 public。由于现在 mass media 的发达, scandals 往往被 wide spread 并且被 exaggerated, 因此很多群众会过分的关注公众人物的丑闻而忽略他们的 achievement。比如 Bill Clinton, 他 sexual scandal 将他的 prestige 降到最低, 而实际上他的功劳是 exceed 他的 mistake 的, 他只不过犯了一个被 amplified 的普通男人经常犯的错误。再比如说, the queen of Diana, people's focus on her angel-like smile

was distracted by her love affair, without knowing if it was true。人无完人, 我们不应该过分关注公众人

物的私生活, 而应该去正确评价他们的本职工作。由于人们更容易 impressed by bad things, 因此丑闻的出现往

往会转移 public 的注意力, 从而使忽略其他事实。从这个意义上讲, 丑闻实际上起不到作者所说的作用。

3 In addition, 我们实际上很多时候被耍了。对丑闻当事人来说为什么有吸引力—利用丑闻获取更多利益—明星提高上镜率+体育明星可以借此提高身价+各

种组织之间, 或组织内部之间的争权夺利

对观众来说—出于嫉妒心理(同样是人类, 同样年龄, 凭什么人家有钱有名自己却~)和窥私心理 很多 immoral official 或者 stars 利用 scandals 来获得 benefits。

在 the general election 期间, candidates 互相揭发对方的 scandals, 甚至编造 scandals 来 attack 对手 to gain

more votes; in the realm of entertainment, many actors or actress made scandals of themselves, and

let themselves become the headline of newspapers and websites. The more frequent they are talked

about by public, the more famous they become. 从这个意义上讲, 丑闻的作用—indicated in the title

statement, 实际上被 twisted 了。我们分不清哪些丑闻是真的哪些丑闻是假的。

3.To err is human, no body could live flawlessly. And actually, people are increasingly used to feeding from the mainstream media without selection. They have lost the ability of critical examine.

Issue 143

143. No field of study can advance significantly unless it incorporates knowledge and experience from outside that field. 在任何研究领域，除非有该领域之外的人引进他们的知识和经验，否则该领域就很难获得巨大的发展。

Write a response in which you discuss the extent to which you agree or disagree with the statement and explain your reasoning for the position you take. In developing and supporting your position, you should consider ways in which the statement might or might not hold true and explain how these considerations shape your position.

(1) Nowadays, knowledge has proven to be like **an intertwined network**, owing to that any field of study is based on the observation, reflection, investigation and abstraction of the essence of our real world.

对于一些学科来说，如果只从学科本身去研究，无视相关学科，会限制该学科发展，无法解决某些问题

psychology and statistics, analyze the psychological problems through statistical methods, find the

similarities and differences; without not able to find the psychological principles, unable to solve

complex problems, e.g. to understand the relationship between physical appearance and first

impression

(2) Admittedly, any subject should have its own distinct characteristics that separate it from other subjects. However, even the most seemingly absolutely irrelevant fields

inevitably have necessary links, which indicates that our world as an integrity in which a diversity of fields are more or less, explicitly or implicitly dependent on each other.

Accordingly, as the statement contends, no field of study could advance significantly unless outsiders bring their knowledge and experience to that field of study.

- (a) The study of advertising.(Psychology, art, economics, mathematics)
- (b) Physics (With help of mathematics)
- (c) Cartography (GPS,RS)
- (d) Even mathematics, the confirmation of the problem that the coloration of any map requires at most four colors with the assistance of computer science.
- (e) Anthropology (Archeologists, geologists)
- (f) The study of astronomy. (Mechanics, mathematics, engineering)

(3) 需要指出的是, 并不是引入了外界的知识就可以进步的。If one wants to make great contributions to a certain field, the first and most important thing is to master all its foundational knowledge. 然后通过对其他学科知识的涉猎, 综合这些知识, 通过自己的归纳总结, 才会取得进步。如 John Nash 对数学知识的掌握非常好, 结合了经济学的知识后, 归纳总结出了数学经济学理论。

有些学术领域不需要其他领域知识和经验 不可否认, 许多基础学科的发展主要的成果都是源自内在的创造, 伦琴 roentgen 发现了 X 射线, 魏格纳提出了

板块学说和漂移学说。

如: 理论数学, 理论物理 但趋势是越来越综合性。

40. Claim: When planning courses, educators should take into account the interests and suggestions of their students.

Reason: Students are more motivated to learn when they are interested in what they are studying. 结论: 在编制教学课程时, 教育工作者应该考虑学生的兴趣和建议。

原因: 当学生对所学的内容感兴趣时, 他们学习的动力更强。

Write a response in which you discuss the extent to which you agree or disagree with the claim and the reason on which that claim is based.

1. Over-specified education will narrow down students' ken and capability of acclimation to future

career The importance of interest: "Interest is the best teacher", with the impetus of interest, one may study spontaneously

and actively, and thus could learn more efficiently than one that learns passively and reluctantly. Regard the process of

study a journey, then the interest serves as the locomotive. (Numerous examples), eg. 达尔文的父亲要求他学医,

但他对自然界有强烈的兴趣，最终写出了“进化论”；爱因斯坦小时候学习并不好，并不表示他笨，而是没有

找到自己的兴趣。所以，教育应该因材施教 *people oriented principle, teach students in accordance of their aptitude and interesting.*

2. It is necessary to provide some basic courses and the task should be left for the nation rather than provinces or cities:

数学，物理，化学这些学科，培养足够的逻辑思维和认知能力 *cognitive skill, logic ability in order to form rigorous thought*

(a) Some course must be learned by all the students: mathematics and native language

(b) It could prevent many problems: inadequate consideration; or pure desire for higher rates of graduate.

(c) Nations would be the most competent for the task

(2) while the courses should not be too rigid, especially for those large countries. *传输教条 facilitate the dissemination of propaganda and other dogma—which because of its biased and one-sided nature undermines the very purpose of true education: to enlighten. Might wish to*

suppress – as some sort of threat to its authority and power.

对学生个人而言，可能不能因材施教 teach students in accordance of their aptitude

(d) The difference of environment: rural areas and metropolises

(e) The difference of facilities among different schools

(f) The difference among students

(3) 从技术上讲，满足每个学生的要求也是无法实现的。 *一方面，资源不够，没有那么多老师，学校也不可能开设那*

么多课程；另一方面，无法制定统一的 schedule 以及进行统一的考试和评价。

(3) To sum, a nation should provide some national curricula, while different areas could provide some course on account of the reality or as supplement. *In order to cater individual needs and to enhance interests of students, schools can offer some specifically designed programs to students*

93. Unfortunately, in contemporary society, creating an appealing image has become more important than the reality or truth behind that image. *很不幸，在当代社会，打造一个引人入胜的外表已经变得比外表下的内容更加重要。*

Write a response in which you discuss the extent to which you agree or disagree with the statement and explain your reasoning for the position you take. In developing and supporting your position, you should consider ways in which the statement might or might not hold true and explain how these considerations shape your position.

(1) Admittedly, creating an appealing image has become increasingly important in contemporary society:

(a) It is human nature to pursue beauty.

(b) In this case, in the field of manufacture, products with appealing images often sell well than those with homely ones.

(c) In political areas, candidates might try all means to show their care in the public affairs as well as the welfare of individuals, while actually it is the power, fame and fortune that attract them.

(2) Moreover, appealing images indicate the respect of others.

(3) However, it could never indicate that the images are more important than the reality or truth behind them, actually, they could never surpass the importance of the latter:

(a) Images could never determine, or change the reality or truth: what tells a gentleman from a rude person is not how well they dress, but the manner and culture they perceive.

(b) Once people find themselves cheated by the images, they would no longer trust in it.

(4) Conclude: an appealing image is important, while the reality and truth are even more significant:

(a) For people, the latter is significantly more important.

(b) For products, neither could be ignored.

在当今社会的快速变化导致人们生活节奏的加快的时代，人们更热衷于事物的外表，而不是它背后的事实。

1、尽管几乎所有人都知道事物背后的事实要比他的外表更重要，但是美丽时尚的外表却逐渐的被越来越多的人，尤其是年轻人，所追求。最明显的例子之一就是充斥街头的各种广告了，现在的公司投入比过去多得多的钱为了制作更具吸引力的广告，因为影响深刻的广告要比过去以引更多的人来购买产品，许多人甚至并不确定它是否真的需要广告中推荐的产品或者是否了解这个产品的性能，只是因为漂亮和影响深刻的广告，就决定要去购买这样的产品。此外，公司里的设计者也需要花费更多的精力来设计产品的外观，因为许多人愿意为想能相同但外表更漂亮的产品花费更多的钱。在政治上也是如此，政治家们也投入更多精力在选举前的宣传上，他们花费更多的时间研究如何给选民留下深刻的印象，而人们也更乐于从电视上看到他们喜爱的政治家，从这个意义上说，宣传对于政治家来说要比实际制定的政策和法律更重要。

2、上述的现象是由多方面的因素造成的。首先，对大部分来说，在他们并没有对事物进行更深刻的调查和研究之前，他们的第一影响就是外表，所以，外表更漂亮的产品显然要比一般产品吸引更多的注意力。其次，人们生活节奏的加快使得多数人没有足够的时间在购买产品之前，对产品进行深入的了解，这最终导致人们开始习惯用直觉来选择产品，而不是产品性能。这一点在科技日益发达的今天显得尤为突出，因为大部分厂商在设计 and 制造产品的时候开始以消费者的心理来进行设计，相反的则忽视了产品的实际性能。在政治上，为了赢得选举，政治家们也开始研究市民的心理，而不是国家的发展方向。

3、尽管现代人们是多么的关心事物的外表，但从长远来看，事物背后的实质仍旧充当着真正的决定因素。一些小企业为了挣足够的钱，以外表为代价换取性能上的低劣，最终导致实际的产品难以满足多数用户的实际需要。当用户发现他们购买的漂亮产品质量很差之后，他们会吸取教训，购买更实用的产品。政治家们的宣传也是一样，当人们发现他们喜爱的政治家使得国家的经济受到损失的时候，会毫不犹豫地支持其他反对的政治家。

总之，事物的外表虽然能够为公司或者政治家带来短期的利益，但是从长远来看，事物背后的实质才是真正的决定性因素。
